Future American Storage & Logistics' Customers:

It is with ease that I write a letter of recommendation for American Storage & Logistics.

I have a distribution company that supplies packaging components to manufacturing. Our business moved to the warehouse space of American Storage & Logistics in November 2006. I am very pleased with their professionalism and willingness to assist our customers. Our daily activities are always handled in a fair, competent and friendly manner.

The services of American Storage & Logistics are greatly appreciated by our company and I am sure any future clients will arrive at the same conclusion.

Sincerely,

**Kim Murray
President**
